

Hi,
there
I'm
Fox

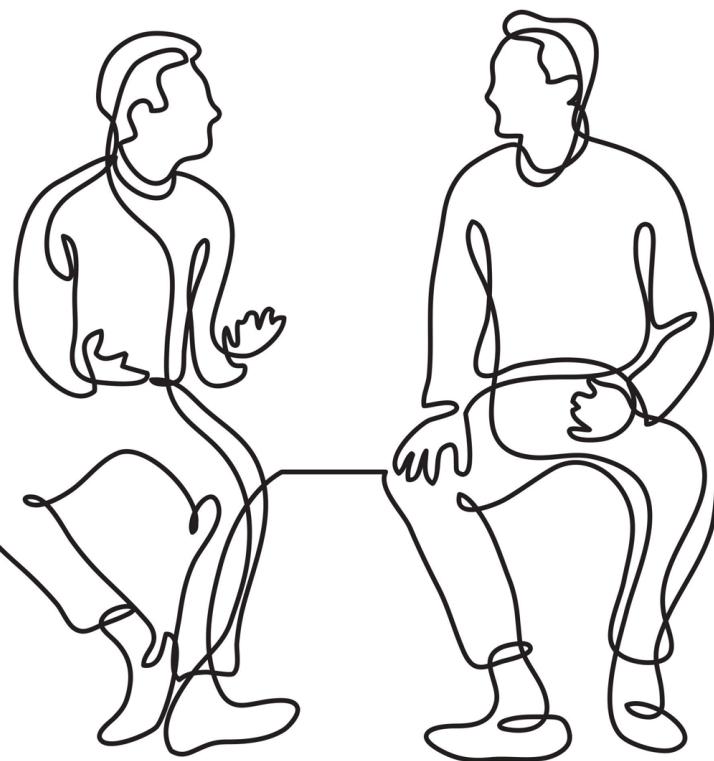

PLAY

Vishing

form of criminal phone fraud, using social engineering over the telephone system to gain access to private personal and financial information for the purpose of financial reward.

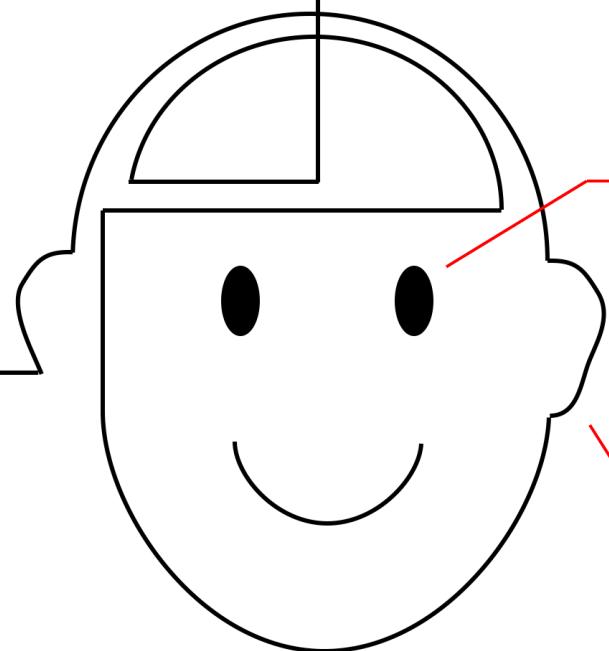

Human Hacking #1

For human... In human language

Important key in security is

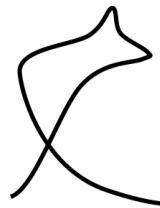

Brain/Logic

*Something,
behind your eyes*

and

Between your ears

Tools it's just one thing

Yourself is important thing

Let's we ask Pak Eko

(maybe) your system is secure enough
... and hacking the system is time consuming

We are as human is our system weakness

*System only follow the
divined
process/flow/rules.*

but

*Human often violate
rules. Sometimes often
to use emotion than
logic.... And
emotion/psychology is
can be to manipulated*

Now You See Me (2013)

Oh, [hey], Dan could I talk to you about my role in the show real quick hey guys?

Divulging Personal Info

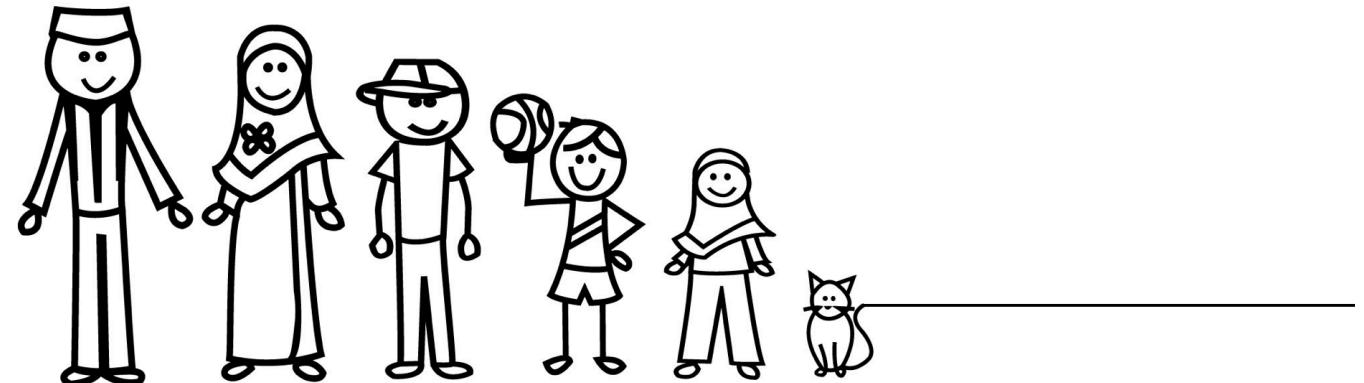

Social Engineering is an art. An Act of psychology manipulation of human

We are living in smart world

... but still dumb people

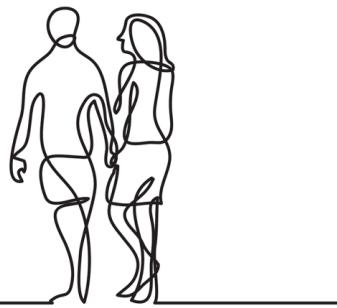

Papip Mamim Nanda Rama Dinda Chelsea

Information should (not) be free

Your family names and member is not public consumption

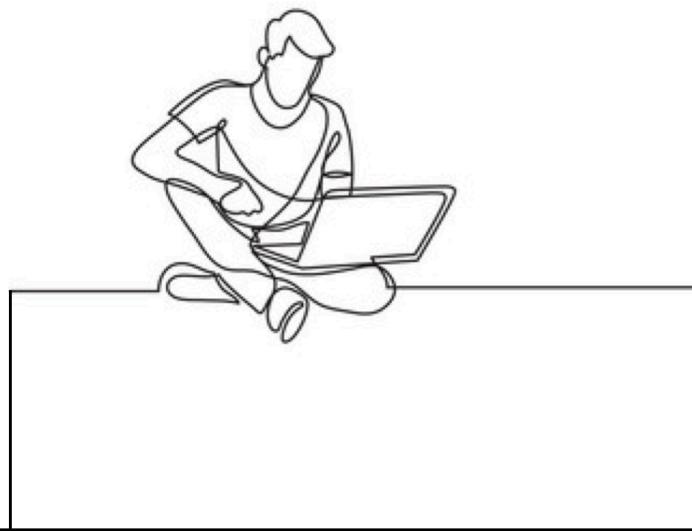

Too much information will kill you...

Live location or vacation plan

Most attack come from internal

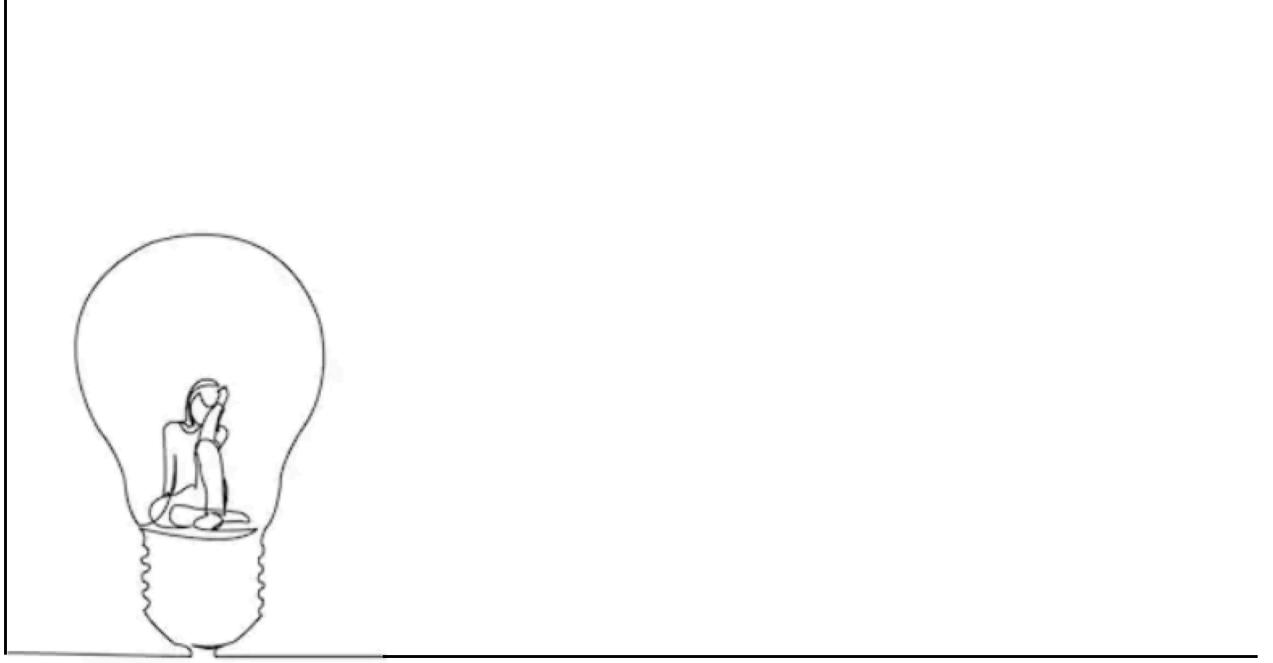

... and usually from frustrated employees

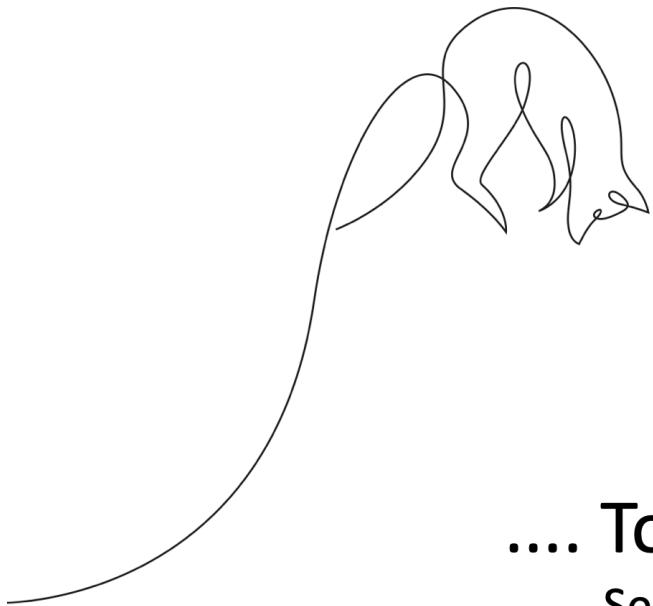

Zero Trust

Always to use our brain and logic

There's no patch for stupidity

.... To be continued
See you on next meetup ;)
